6.2.3 Resignations: Any member or alternate member of the Architectural Committee may at any time resign upon written notice delivered to Declarant or to the Owners, whichever then has the right to appoint member.

6.2.4 Vacancies: Vacancies on the Architectural Committee, however caused shall be filled by the Declarant or the Owners, whichever then has the power to appoint members.

6.3 DUTIES: It shall be the duty of the Architectural Committee to consider and act upon proposals or plans submitted to it pursuant to the terms hereof, to adopt Rules to perform other duties delegated to it by a majority of the Owners, and to carry out all other duties imposed upon it by this Declaration.

6.4 MEETINGS: The Architectural Committee shall meet from time to time as necessary to properly perform it duties hereunder. The vote or written consent of any two (2) members shall constitute an act by the Committee unless the unanimous decision of its members is otherwise required by this Declaration. The Committee shall keep and maintain a record of all actions taken by it at such meeting or otherwise.

6.5 ARCHITECTURAL COMMITTEE RULES: The Architectural Committee may, from time to time and in its sole discretion, adopt, amend and repeal, by unanimous vote, rules and regulations to be known as "Architectural Committee Rules". Said Rules shall interpret and implement the provisions hereof by setting forth the standards and procedures for Architectural Committee review and guidelines for architectural design, placement of buildings, landscaping, color schemes, exterior finishes and materials and similar features which may be used in the Project; provided, however, that said Rules shall not be in derogation of the minimum

standards required by this Declaration.

6.6 APPLICATION FOR APPROVAL OF IMPROVEMENTS: Any Owner, except the Declarant and its agents proposing to perform any work of any kind whatever which requires the prior approval of the Architectural Committee pursuant to Article IV, or any other section of this Declaration, shall apply to such committee for approval by notifying the Architectural Committee of the nature of the proposed work in writing and furnishing such information as the Committee may reasonably require.

6.7 BASIS FOR APPROVAL OF IMPROVEMENTS: The architectural Committee shall grant the required approval only if:

(a) The Owner shall have complied with the provisions of Section 6.6 above;

(b) The Architectural Committee shall find that the plans and specifications conform to this Declaration and to the Architectural Committee Rules in effect at the time such plans were submitted to such Committee; and

(c) The members of the Architectural Committee in their sole discretion determine that the proposed Improvements would be compatible with the standards of the Project and the purposes of this Declaration as to the quality of workmanship and materials, as to harmony of external design with the existing structures, and as to location with respect to topography and finished grade elevations.

6.8 FORM OF APPROVAL AND DENIALS: All approvals and denials shall be in writing; provided, however, that any request for approval which has not been rejected within forty-five (45) days from the date of submission thereof to the Architectural Committee shall be deemed approved. Any denial of a proposal must state the reasons for the decision to be valid.

6.9 PROCEEDING WITH WORK: Upon receipt of approval from the Architectural Committee, the Owner shall, as soon as practicable, satisfy all conditions hereof and diligently proceed with the commencement and completion of all construction, reconstruction, refinishing, alterations and excavations pursuant to said approval, said commencement to be in all cases, within one (1) year from the date of such approval. If the Owner fails to comply with this Paragraph, the approval given shall be deemed revoked unless the Architectural Committee, upon written request of the Owner made prior to the expiration of said one (1) year period, extends the time for such commencement. No such extension shall be granted except upon a finding by the Architectural Committee that there has been no change in the circumstances upon which the original approval was granted.

6.10 FAILURE TO COMPLETE WORK: The Owner must complete the work approved within one (1) year after commencing construction thereof, except and for so long as such completion is rendered impossible or would result in great hardship to the Owner due to strikes, fires, national emergencies, natural calamities or other supervening forces beyond the control of the Owner or his agents. If an Owner fails to comply with this Paragraph, the Architectural Committee shall notify the Owner of such failure, and the Committee shall proceed in accordance with the provisions of Paragraph 6.11 below as though the failure to complete the Improvement were a non-compliance with approved plans.

6.11 DETERMINATION OF COMPLIANCE:

6.11.1 Upon the completion of any work for which approval is required, the Owner shall give written notice of completion to the Architectural Committee.

6.11.2 Within sixty (60) days thereafter the Architectural Committee, or its duly authorized representative, shall inspect the work performed and determine whether it was performed in substantial compliance with the approval granted or if the Architectural Committee finds that the approval required was not obtained, it shall notify the Owner in writing of such non-compliance within such sixty (60) day period. The notice shall specify the particulars of non-compliance, and shall require the Owner to remedy such non-compliance.

6.12 FAILURE TO REMEDY THE NON-COMPLIANCE:

6.12.1 If upon expiration of thirty (30) days from the date of such notification, the Owner shall have failed to remedy such non-compliance, the Architectural Committee shall notify the Owner in writing of such failure. The Committee shall then set a date on which a hearing before the Committee shall be held regarding the alleged non-compliance is given to the Owner by the Architectural Committee. Notice of the hearing date shall be given at least ten (10) days in advance thereof by the Committee to the Owner, and, in the discretion of the Committee, to any other interested party.

6.12.2 At the hearing, the Owner, the Architectural Committee and, in the Committee's discretion, any other interested person may present information relevant to the question of the alleged non-compliance. After considering all such information, the Committee shall determine whether there is a non-compliance and, if so, the nature thereof and the estimated cost of correcting or removing the same. If a non-compliance exists, the Committee shall require the Owner to remedy or remove the same within a period of not more than forty-five (45) days from the date of the Committee's ruling. If the Owner does not comply with the Committee's ruling within such period or within its extension of

such period as the Committee, in its discretion, may grant, the Committee, at its option, and at the expense of the Owner may either remove the non-complying Improvement or remedy the non-compliance.

6.12.3 If for any reason the Architectural Committee fails to notify the Owner of any non-compliance within sixty (60) days after receipt of said notice of completion from the Owner, the Improvement shall be deemed in accordance with said approved plans.

6.13 APPLICATION FOR PRELIMINARY APPROVAL: Any Owner proposing to construct Improvements requiring the prior approval of the Architectural Committee may apply to the Committee for preliminary approval by submission of preliminary drawings of the proposed Improvements in accordance with the Architectural Committee Rules. The purpose of the preliminary approval procedure is to allow an Owner proposing to make substantial Improvements an opportunity to obtain guidance concerning design considerations before expending substantial sums for plans and other exhibits required to apply for final approval. Applications for preliminary approval shall be considered and disposed of as follows:

6.13.1 Within thirty (30) days after proper application for preliminary approval, the Architectural Committee shall consider and act upon such request. The Architectural Committee shall grant the approval only if the proposed Improvement, to the extent its nature and characteristics are shown by the application, would be entitled to a final approval on the basis of a full and complete application. Failure of the Architectural Committee to act within said thirty (30) day period shall constitute an approval. In granting or denying approval, the Architectural Committee may give the applicant such directions concerning the form and substance of the final application for approvals as it may deem proper or desirable for the guidance of the applicant.

6.13.2 Any preliminary approval granted by the Architectural Committee shall be effective for a period of ninety (90) days from the date of issuance. During said period, any application for final approval which is substantially consistent with the provisions of the preliminary approval, and which is otherwise acceptable under the terms of this Declaration and architectural rules and guidelines in effect at the date of preliminary approval, shall be approved by the Architectural Committee.

6.13.3 In no event shall any preliminary approval be deemed to be an approval authorizing construction of the subject Improvements.

6.14 WAIVER: The approval by the Architectural Committee of

any plans, drawings or specifications for any work done or proposed, or for any other matter requiring the approval of the Architectural Committee under this Declaration, shall not be deemed to constitute a waiver of any right to withhold approval of any similar plan, drawing, specification or matter subsequently submitted for approval.

6.15 ESTOPPEL CERTIFICATE: Within thirty (30) days after written demand is delivered to the Architectural Committee by any Owner, and upon payment to the Committee of a reasonable fee (as fixed from time to time by the Architectural Committee), the Architectural Committee shall record and estoppel certificate, executed by any two (2) of its members, certifying (with respect to any Lot of said Owner) that as of the date thereof either: (a) the work completed complies with this Declaration, or (b) the work completed does not comply. In the latter situation, the certificate shall also identify the particulars of the non-compliance. Any successor-in-interest of the Owner shall be entitled to rely on said certificate with respect to the matters therein set forth, such matter being conclusive as between the Committee, Declarant and all Owners and such persons deriving any interest through them.

6.16 LIABILITY: Neither Declarant nor the Architectural Committee nor any of its members shall be liable to any Owner for any damage, loss or prejudice suffered or claimed on account of: (a) the approval or disapproval of any plans, drawings and/or specifications, whether or not defective, or (b) the construction or performance of any work, whether or not pursuant to approved plans, drawings and specifications, or (c) the development of any property within the Project, or (d) the execution and filing of an estoppel certificate pursuant to Section 6.15, whether or not the facts therein are correct; provided, however, that such member has acted in good faith on the basis of such information as may be possessed by him. Architectural Committee, or any member thereof, may but is not required to, consult with or hear the views of any Owner with respect to any plans, drawings, specifications or any other proposal submitted to the Architectural Committee.

6.17 NON-APPLICABILITY TO DECLARANT: The provisions of this Article shall not apply to the initial development or construction of Improvements in the Project by Declarant, whether prior to or after conveyance of a Lot to an Owner.
