## AGENDA TRANSMITTAL

**MEETING DATE:** May 19, 2015

---

**CITY AGENDA ITEM:** Traffic Committee Report May 19, 2015.

---

**FISCAL IMPACT:** None at this time.

---

**BACKGROUND:** The Traffic Committee (TC) is a made up with department heads or their assignees to advise the City Council and/or make recommendations on traffic issues. The TC investigates complaints from the community, reviews plans for new development and streets, and reviews ongoing traffic issues.

The committee membership includes the Police, Fire, Building, Planning and Engineering. The TC meets and reports to the City Council quarterly, unless pressing issues require immediate attention.

---

**STAFF REPORT:** The May 19, 2015 Traffic Report is as follows:

- Police will continue enhanced traffic enforcement patrols and place the radar trailer to slow traffic on:
    - Fulmar
    - Klamath
    - Lawler Ranch Parkway
  - Public Works is looking for engineering solutions for traffic calming on Lawler Ranch Parkway. Some considerations are:
    - Small traffic islands at a cross street.
    - Adding a bike lane to narrow the street.
  - Sunset and Railroad east side; will look for funds to add more lane direction signs:
    - Merge arrow and right-turn arrows near the Railroad (west) and Sunset.
  - Parking
    - Public Works will place "Park in designated spaces only" at the four main entrances to Petersen Ranch. This will allow PD to issue citations.
    - Victorian Village – PD will write an informational letter to the residents to correct parking issues in the alleys. Then enforcement will be started.
- 

**STAFF RECOMMENDATION:** It is recommended that the City Council receive and file the Traffic Report.

Re: FAST Service Change Proposal effective July 1, 2015

Dear Mr. Kasperson:

The City of Fairfield appreciates our continued relationship in providing public transportation services to Suisun City with Fairfield and Suisun Transit (FAST). It is our goal to provide the best possible service to our community within our available financial means. With this in mind, it is our intent to improve services in Suisun City in July 2015 by modifying existing routes to serve the newly opened Suisun City Walmart.

The Suisun City Walmart, located at 350 Walters Road, opened in March 2015. Currently FAST does not provide fixed-route transportation service to the Walmart. It is evident that transit-dependent residents will need transportation to shop or work at the largest general merchandise retailer in Suisun City.

Currently, there are two routes that serve Suisun City: Routes 5 and 6. Route 5 serves the Fairfield Transportation Center, Suisun Amtrak, Suisun Senior Center, and Lawler Ranch. Route 6 serves the Solano Town Center, Suisun Senior Center, the KROC Center, and the west side of Suisun City along Montebello Drive and Bella Vista Drive.

FAST staff reviewed the productivity level of each route to identify opportunities for improvement. In FY14, Route 5 averaged 7.7 passengers per revenue hour and Route 6 averaged 13.3 passengers per hour. Route 5 has demonstrated lower service productivity and has a history of running late at peak travel times. Route 5 also does not currently provide regular service to Suisun City Hall, or enter the Suisun Amtrak Station on the westbound trip, due to time constraints. In light of this, staff is recommending to alter Route 5 and add a new Route 9 to serve Walmart.

Letter to Daniel A. Kasperson  
Re: FAST Service Change Proposal effective July 1, 2015  
May 6, 2015  
Page 2

Attached is a map of the proposed service modification, including the new Route 9. The proposal adds service to Walmart with a minimal increase in the total revenue hours, making it a sustainable service change.

Route 5 currently operates every 30 minutes on weekdays and hourly on Saturdays. The proposed new service will alter the Route 5 to hourly frequencies on weekdays and Saturdays, and provide regular stops at the Suisun City Hall. Route 5 will end at the Senior Center, connecting to Routes 6 and 9, before returning back to the FTC. This will shorten the route and increase service reliability and timeliness.

The new Route 9 will operate every 30 minutes on both weekdays and Saturdays, which is an increase of service on Saturdays. The new Route 9 will provide service from the Suisun Senior Center, Pintail Drive, Walters Road, Lawler Ranch Parkway, and include the new stop at Walmart. FAST will also add 3 new bus stops in the community: two new bus stops on Lawler Ranch Parkway and one new bus stop on Walters Road, across the street from the existing bus shelter in front of Walmart.

It is our intent to present this service recommendation to the Fairfield City Council on June 2, 2015 for adoption.

We appreciate the opportunity to present this information to the Suisun City Council on May 19, 2015 and forward the City's support for this new service to the Fairfield City Council. Please let me know if you have any questions regarding this effort.

Sincerely,

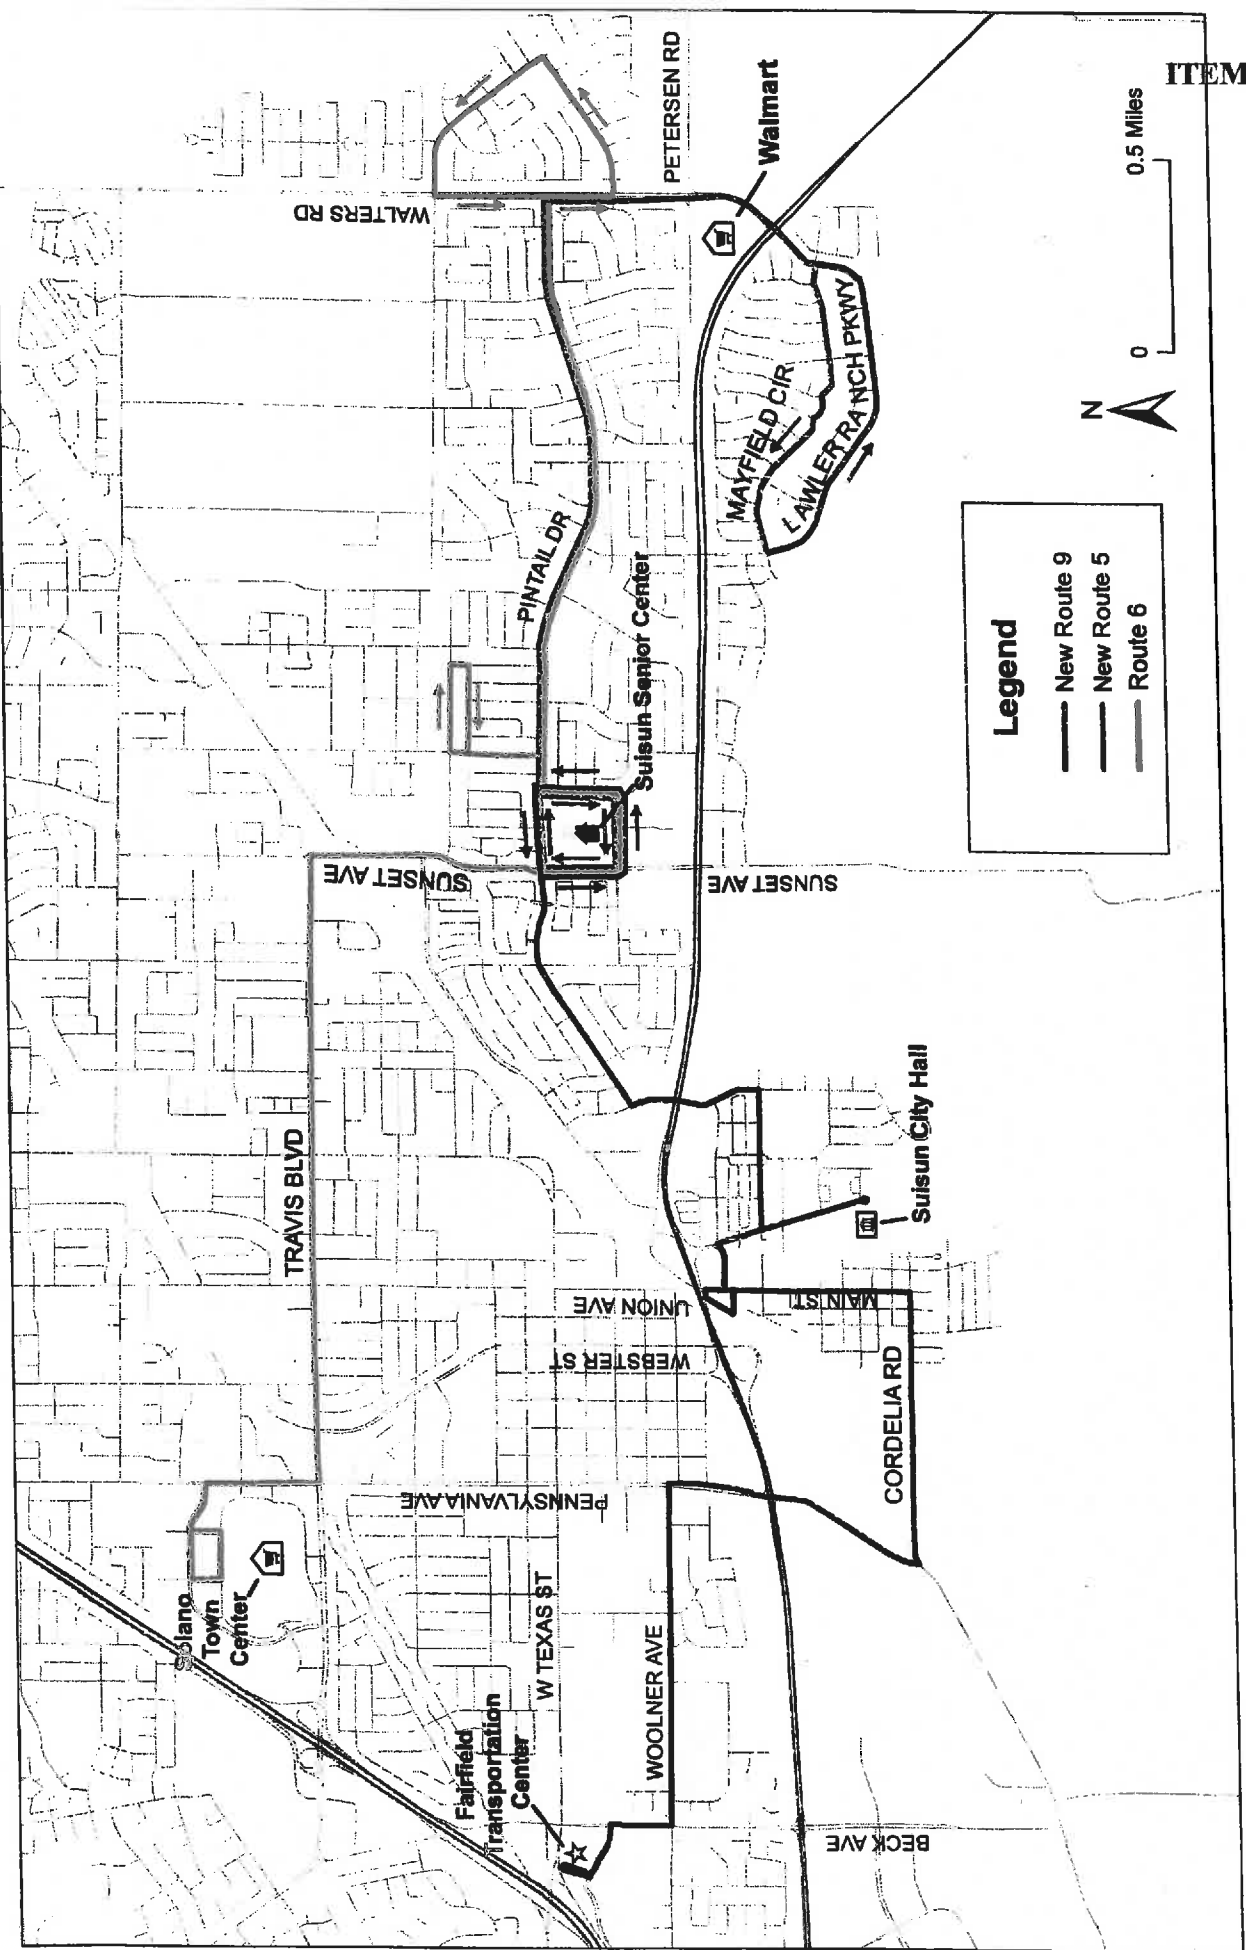

NATHANIEL ATHERSTONE  
Transportation Manager  
City of Fairfield

**AGENDA TRANSMITTAL****MEETING DATE:** May 19, 2015

---

**CITY AGENDA ITEM:** Council Adoption of Resolution No. 2015-\_\_: Authorizing the City Manager to Execute a Memorandum of Understanding with Rising Sun Energy Center for Its California Youth Energy Services (CYES) Program.

---

**FISCAL IMPACT:** There is no impact to the General Fund or other City fund for this Program.

---

**BACKGROUND:** The California Public Utilities Commission (CPUC) has provided funding for the Rising Sun Energy Center California Youth Energy Services Program. Rising Sun Energy Center focuses on reaching hard-to-reach households and employing local youth.

---

**STAFF REPORT:** Rising Sun Energy Center (Rising Sun) is a Bay Area nonprofit workforce development organization established in 1994. Since 2000, Rising Sun has promoted local resource conservation via a young adult employment program, California Youth Energy Services (CYES). As the residential program arm of the East Bay, Marin, San Joaquin, Solano, and Sonoma County Energy Watch partnerships, the CYES program trains and employs young adults ages 15-22 to provide energy and water conservation assessments and installations to local residents at no cost to the customer. This service, called a Green House Call, is offered to both homeowners and renters, and checks homes for efficiency, installs equipment, and provides personalized recommendations for further savings.

CYES has two goals that set it apart from other youth programs. First, it provides direct-install energy and water-efficiency services to the community at no cost, with a focus on hard-to-reach households. These include:

- Non-English speakers, who often miss out on services due to language barriers.
- Renters.
- Moderate-income households.
- Multifamily dwellings.
- Senior citizens.

Second, CYES Energy Specialists are local youth (age 15 to 22), who often struggle to find paid work experience on a meaningful career track. At the end of the program, the participants receive a letter of recommendation and numerous new jobs skills they would be unlikely to learn otherwise.

Rising Sun operates the CYES program by setting up satellite CYES site offices in partner cities. Youth Energy Specialists are hired locally from the partner city and serve the local community. The average total cost of running of a CYES satellite office is approximately \$150,000 per site. This cost includes youth salaries, manager salaries, site set-up and breakdown, outreach and marketing, equipment and materials, transportation, planning, coordination, and all overhead costs. All costs will be covered by the Program.

Rising Sun will operate and manage a California Youth Energy Services program site office in Suisun City during the 2015 summer season (approximately June to August) out of the Burdick Center. "Green House Calls" would begin on June 30, 2015 and run through August 6, 2015. The City would not be providing the Program with any space beyond the space at the Burdick Center. The County of Solano has volunteered to provide the Program with laptops for the length of the program in Solano County. The City would not be providing any equipment to the Program beyond what is currently available at the Burdick Center.

No other action is required from the Council beyond approval for the City Manager to execute a Memorandum of Understanding with the Program.

## Memorandum of Understanding

This Memorandum of Understanding is entered into this 19<sup>th</sup> day of May, 2015 by and between Suisun City and Rising Sun Energy Center (Rising Sun). It addresses the processes by which Suisun City and Rising Sun will collaborate to implement the California Youth Energy Services program, detailing the responsibilities of Rising Sun as the program implementer, and the support provided by the City.

Rising Sun's California Youth Energy Services program is offered in Solano County through the Pacific Gas and Electric Company and the Solano County Energy Watch.

### SCOPE OF WORK

Rising Sun Energy Center (Rising Sun) is a Bay Area nonprofit workforce development organization established in 1994. Since 2000, Rising Sun has promoted local resource conservation via a young adult employment program, California Youth Energy Services (CYES). As the residential program arm of the East Bay, Marin, San Joaquin, Solano, and Sonoma County Energy Watch partnerships, the CYES program trains and employs young adults ages 15-22 to provide energy and water conservation assessments and installations to local residents at no cost to the customer. This service, called a Green House Call, is offered to both homeowners and renters, and checks homes for efficiency, installs equipment, and provides personalized recommendations for further savings.

CYES has two goals that set it apart from other youth programs. First, it provides direct-install energy and water efficiency services to the community at no cost, with a focus on hard-to-reach households. These include:

- Non-English speakers, who often miss out on services due to language barriers
- Renters
- Moderate income households
- Multifamily dwellings
- Senior citizens

Second, CYES Energy Specialists are local youth, who often struggle to find paid work experience on a meaningful career track.

Rising Sun operates the CYES program by setting up satellite CYES site offices in partner cities. Youth Energy Specialists are hired locally from the partner city and serve the local community. The average total cost of running of a CYES satellite office is approximately \$150,000 per site. This cost includes youth salaries, manager salaries, site set-up and breakdown, outreach and marketing, equipment and materials, transportation, planning, coordination, and all overhead costs.

Rising Sun will run and manage a California Youth Energy Services program site office in Suisun City during the 2015 summer season. Rising Sun will execute the CYES program in Suisun in three phases: Design and Planning, Training and Implementation, and Closing and Reporting.

#### **Location of Work**

The Suisun site office will be set up in a suitable working space contributed in-kind by Suisun City. The details regarding site requirements are further outlined in Appendix A. Youth Energy Specialists will be based out of the CYES site office, and will perform field work in local residents' homes.

#### **LOGISTICS**

Each CYES site is run by an adult Site Manager and a Site Outreach Manager. The Site Outreach Manager markets the service to the local community and identifies residents interested in Green House Calls, signing them up for scheduled appointments. Outreach techniques include event tabling, bill inserts, social and traditional media, neighborhood canvassing, and partnerships with community groups and property management companies. The Site Manager is responsible for overseeing the physical site office and coordinating logistics and administration.

Both the Site Manager and the Site Outreach Manager are responsible for training and supervising the youth Energy Specialists, of whom there are eight at each site. The youth are chosen for their professionalism, ability to work in teams, critical thinking skills, and self-motivation. Both adult staff are trained and supervised by permanent Rising Sun staff who work throughout the year to ensure the program's success.

Energy Specialists work in pairs composed of a minor and a youth aged 18 or over, so that there is always a legal adult on each assignment. Comprehensive field monitoring policies are in place to ensure the quality of the work. A pair of Energy Specialists can visit three to six households a day.

#### **WORK SCHEDULE**

##### **Program Design and Planning: February - May 2015**

Upon finalizing the contract, Rising Sun will begin program planning and design. Rising Sun will also launch its community marketing and outreach campaign to generate a waitlist of residents for the summer. In order to meet outreach and recruitment goals, a contract should be in place no later than January 31, 2015. Rising Sun will also conduct a youth and manager recruitment campaign in the spring, as well as site office setup. Rising Sun will set up the Suisun site office in late May and early June. Access to the office space and keys will be given to Rising Sun by May 15 to ensure timely set-up. Program design and planning includes:

- Marketing and outreach to community renters and homeowners
- Youth recruitment and hiring
- LIFT recruitment and hiring
- Manager recruitment and hiring
- Inventorying and purchasing of tools, equipment, and materials
- Preparation of outreach and audit forms

- Site set-up (IT, etc.) and distribution of tools, equipment, and materials

### **Program Training and Implementation: June - August 2015**

CYES program implementation begins with training. Rising Sun will conduct Manager and LIFT trainings, followed by youth training. Youth Energy Specialists will conduct field work for six weeks following training. Program training and implementation includes:

- Manager Training
- Youth Training
- LIFT Training
- Program Implementation (six weeks of field work/Green House Calls – see below)

### **Green House Calls**

CYES Energy Specialists perform Green House Calls that provide renters and homeowners with free energy and water conservation assessments, equipment installation, and education. Because the equipment installed does not alter the infrastructure of a home, renters are eligible for CYES services. The CYES program serves single-family, 2-4 plex, and multi-unit dwellings.

A CYES Green House Call consists of:

- A walkthrough energy assessment of the house with the client, looking for energy- and water-saving opportunities
- Direct installation of free energy and water saving measures; for example:
  - Efficient-flow faucet bath and kitchen aerators
  - Efficient-flow showerheads
  - Screw-in compact fluorescent lamps (CFLs)
  - Screw-in light emitting diodes (LEDs)
  - Retractable clotheslines in qualifying homes, or a powerstrip or LED nightlight
  - Fluorescent floor lamps, in exchange for halogen floor lamps
  - Pipe insulation for water heaters
  - Additional measures as available
- Checking for adequate attic insulation, pipe insulation, and a hot water heater blanket
- E-waste removal
- Testing gallon per minute (GPM) flow rate tests on all feasible shower, kitchen, and bathroom water fixtures
- Assessment of toilets for leaks and flush volume
- Assessment of refrigerator and water heater temperature settings
- Collection of irrigation information
- Energy and water conservation education, including personalized recommendations
- Customized report to the client documenting work completed and ways to further capture energy savings after the CYES appointment

### **Program Close and Reporting: August – November 2015**

The reporting process begins in late August, after all CYES sites have been properly closed down, and continues through November. Due to the large amount of data collected across CYES

cities, the data analysis and translation process takes 2-3 months to complete. Final reports will be distributed to partner cities no later than November 15, 2015. Program close and reporting includes:

- Site breakdown and closeout
- Data analysis and translation
- Create and distribute all reports

## AGENDA TRANSMITTAL

**MEETING DATE:** May 19, 2015

---

**CITY AGENDA ITEM:** Council Adoption of Resolution No. 2015-\_\_\_: Initiating Proceedings, Preliminarily Approving the Annual Engineer's Reports, and Declaring Its Intention to Levy and Collect Assessments for the Suisun City Maintenance Assessment Districts for Fiscal Year 2015-16.

---

**FISCAL IMPACT:** The Maintenance Assessment Districts (MADs) are important components of the City's landscape and lighting maintenance program. Together they generate over \$1 million annually in assessments (Non-General Fund) to maintain the various District neighborhoods and to dredge the channels.

The proposed assessments would be collected for the City by the Solano County Auditor/Controller, via the secured property tax bills of the assessable parcels within each of the District boundaries, to fund the ongoing landscaping and lighting maintenance in each District. For Fiscal Year 2015-16, maximum assessments will vary from \$75.00 to \$3,374.89 per equivalent dwelling unit (EDU), depending on the District. These Districts provide services that benefit the properties assessed and that would otherwise be provided from the General Fund.

The maximum assessment for all the Districts, except for Heritage, Montebello and Marina Dredging, are subject to an annual inflation factor based on the Annual Construction Cost Index as published in the first issue of each April of the Engineering News Record magazine. This year the annual inflation factor was 2.457% increasing the assessments around \$0.00 to \$80.95 per equivalent dwelling unit, depending on the District. The total assessments collected, with CCI increases, will be around \$1,140,000.

---

**STAFF REPORT:** This resolution starts the routine annual process of ultimately levying assessments on the City's Maintenance Assessment Districts. The City of Suisun City has eight Maintenance Assessment Districts (Blossom, Heritage Park, Lawler Ranch, Marina Village, Montebello Vista, Peterson Ranch, Railroad Avenue and Victorian Harbor Maintenance Assessment Districts). Six were created in accordance with the Landscaping and Lighting Act of 1972. Two, Marina Village and Victorian Harbor, were created in accordance with the Municipal Improvement Act of 1913. The Acts require the preparation of annual Engineer's Reports for each MAD.

During the months of March and April, staff held meetings with the residents of each District to discuss District funding, the current landscape contract and any concerns or priorities for the coming year. Feedback from these meetings was overwhelmingly positive. During the meetings, City staff reports on accomplishments from the prior year and then discusses and gets input on the plans for the coming fiscal year. The meetings have been held on a regular basis over the last six years and this has allowed for greater communication between the attending residents and City staff.

The Montebello Vista District is currently going through the process of attempting to realign the boundaries of the District to include all homes within the geographic subdivision boundary. This will be done through a mail-in ballot voting process. As it stands, only 486 homes out of the total of 685 homes in the District are assessed the levy amount. This leaves 199 homes that are within the geographic subdivision boundary and who receive benefits, but are not assessed the levy amount. If passed, the new rate would be in effect in Fiscal Year 2015-16. If proposed realignment is not passed by the voters, the existing Montebello Vista District would remain as is and the \$75 would be levied on those homes that currently pay into the District. The budget for Fiscal Year 2015-16 is based on the existing District rates. The budget would be updated, if the realignment is approved by the voters.

Today, the City Council is being asked to initiate the process, consider for approval the Preliminary Engineer's Reports for all Districts, declare the intent to levy and collect assessments for all Districts, and establish June 16, 2015, for the required Public Hearing. This would not be the final approval of the levy amount.

At the Public Hearing, Council should allow property owners the opportunity to address the Council concerning the Districts, and the Council may approve or amend the Preliminary Engineers Reports and order the levy and collection of taxes. Then NBS will prepare the taped Assessor Parcel Assessment Report to be sent to the County prior to the Assessor's deadline on August 3, 2015.

---

**STAFF RECOMMENDATION:** It is recommended that the City Council adopt Resolution No. 2015-\_\_: Initiating Proceedings, Preliminarily Approving the Annual Engineer's Reports, and Declaring Its Intention to Levy and Collect Assessments for the Suisun City Maintenance Assessment Districts for Fiscal Year 2015-16.
