Awanta Apartments

20 Residential Water Front Units

Project Description:

- The project is located at 400 Main Street, Suisun City, California, on an existing site along the Historic Suisun City Waterfront.
- The proposed building will feature 10 single-story apartments per floor, totaling 20 apartments across two floors. The first floor will occupy the entire site, with no removal of existing trees.
- Public parking is available adjacent to the site. Additionally, the train station and other transportation hubs are within walking distance, just across the street.
- Each apartment includes a private deck accessible from the main living room, offering views of downtown Suisun Waterfront. Large windows and glass doors maximize natural light and capture scenic views of the harbor and historic downtown.
- The 20 apartments will consist of 12 one-bedroom units and 8 two-bedroom units.
