NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

TO: Interested Parties

FROM: Suisun City Development Services Department

DATE: June 10, 2019

SUBJECT: Suisun Marina October and November Maintenance Dredging Project

PROJECT DESCRIPTION

The Project proposes maintenance dredging from October 1 to November 30 in the Marina and associated Whispering Bay and Marina Village Residential District Area access channels, last dredged in 2008. The total volume of material to be removed during this dredge window is estimated at 53,000 cubic yards (CY) and would take approximately 30 to 60 days to complete. Dredged sediment would be placed at Pierce Island, which has been permitted as a long-term dredged material disposal site since 1990. Dredging would assure safe navigable depths for vessels that currently use this facility. No new or expansion of existing use or capacity is proposed for the Marina or associated channels.

Environmental Determination: An Initial Study was prepared to examine potential areas of impact resulting from the proposed maintenance project. The Initial Study found that the proposed project would not have a significant effect on the environment with compliance with required regulatory permit conditions and with the required implementation of mitigation and avoidance measures to protect biological resources and water quality. As a result, an Environmental Impact Report is not required and a Mitigated Negative Declaration has been prepared.

Availability of Documents: The Initial Study/Mitigated Negative Declaration (IS/MND) is now available for public review at Suisun City Hall, 701 Civic Center Blvd, Suisun City, CA 94585. A PDF digital file of the IS/MND, or a hard (paper) copy of the IS/MND, are also available upon request from the Planning Division at the address above or jkearns@suisun.com. The IS/MND can also be found at <https://www.suisun.com/departments/development-services/planning/>.
