## AGENDA TRANSMITTAL

**MEETING DATE:** January 17, 2014

---

**OVERSIGHT BOARD AGENDA ITEM:** Agency Adoption of Resolution No. OB2014 - \_\_: Authorizing the Executive Director to Extend the Term of the Main Street West Disposition and Development Agreement (DDA)

---

**FISCAL IMPACT:** None. There are no proposed changes to fiscal components of the DDA as part of this action.

---

**IMPACT ON PASS THROUGHES TO OTHER TAXING ENTITIES:** This item has no impact on the existing pass-through payments to the other affected taxing entities.

---

**BACKGROUND:** In mid-2005, Main Street West Partners, LLC was selected as the master developer of the Main Street West Project, which initially consisted of 13 former Redevelopment Agency-owned properties in the Waterfront District amounting to approximately 8.4 acres for development of residential, commercial, and mixed-use projects. A Disposition and Development Agreement (DDA) was executed in April 2006. In July 2006, the Agency approved the First Amendment to the DDA, which added a 7.44-acre property (the former Crystal Middle School site) to the Project. In September 2007, the Second Amendment to the DDA was approved, which updated the Schedule of Performance. In January 2009, the Third Amendment to the DDA was approved, which allowed the former Agency to acquire property from MSW Partners, and provide an advance of developer reinvestment funds in the form of a loan, and to amend the Schedule of Performance. A map is attached that provides a graphic representation of the location of these properties.

Despite the economic downturn that developed into the “Great Recession,” significant progress has been made since the inception of this project on several fronts including:

- The “Harbor Square” mixed-use project located at the southwest corner of Main Street and Solano Street is complete and nearing 77% occupancy. This project contains approximately 40,000 square feet of retail and office space, and includes a public courtyard area that features the fireplace centerpiece.
- Main Street West Partners purchased a privately held 2± acre site adjacent to the eastern line of the One Harbor Center office development at the north end of the waterfront, and subsequently sold the property to Basin Street Properties which resulted in the development of the Hampton Inn and Suites, Suisun City’s first hotel in more than 50 years.
- Two other commercial projects have been approved through construction documents (on Parcels 3 and 7). Parcel 3 will consist of approximately 5,500 square feet of ground floor retail with 5,500 square feet of office (or possibly residential) on the second floor. Parcel 7 consists of approximately 4,100 square feet of restaurant space on the ground floor with a 3,600± square foot banquet facility on the second floor. These projects are positioned such that construction can begin as soon as the market will allow.

**PREPARED BY:**

Jason Garben, Economic Development Director

**REVIEWED/APPROVED BY:**

Suzanne Bragdon, Executive Director

- A tentative subdivision map has been approved on Parcel 10 (currently 16 single-family residences similar in size and character of existing Victorian Harbor product). However, modifications are expected to the tentative map to better accommodate current market conditions.

The Main Street West Project fell victim to the “Great Recession,” which resulted in project delays due to economic conditions beyond the control of the City or Main Street West Partners. However, with the economic recovery in place, Main Street West Partners is eager to commence with the development in and around the Waterfront District and has been working with staff on an amendment to the DDA that will allow the original intent of the DDA to be carried out within the confines of the State laws governing the dissolution of the former redevelopment agencies for the benefit of the City as well as the affected taxing entities.

---

**STAFF REPORT:** The existing DDA is set to expire on February 19, 2013. Significant progress is being made on modified terms and conditions to the DDA that will allow the development to move forward in light of current market conditions and redevelopment agency dissolution law, which will ultimately benefit all of the taxing entities. However, more time is required to work through the process, due to issues caused by the dissolution of the Redevelopment Agency and the change in market conditions; thus, the request for an extension.

Pursuant to Part Two, Article 3.04(C) of the original DDA, the Executive Director may extend times of performance in writing by mutual agreement of the Developer and the Executive Director, unless the Executive Director refers the matter of extension to the Agency Board. Further, pursuant to Part Two, Article 3.23 of the original DDA, Agency staff is authorized to execute changes to the DDA that would not substantially alter the basic business terms of the DDA. By simply extending the term of the DDA by 120 days, no changes to the business terms of the DDA are proposed. However, in light of the dissolution process, Agency Legal Counsel recommended the extension be considered by the Successor Agency, and approved by the Oversight Board. The Successor Agency approved a 120-day extension at its last meeting on January 7, 2014.

By providing for an extension to the term of the DDA, the parties are hopeful to resolve the issues and work through the process that will allow the Main Street West project to move forward. Given the significant investment that Main Street West Partners has in this project, coming to terms that will allow the project to move forward, versus the alternative of starting over is clearly beneficial to all involved. Specific examples of the benefits include:

1. Expedited Property Sales - Allowing property sales, which will result in a one-time cash windfall to affected taxing entities, to occur sooner rather than later. If the DDA were terminated, the fate of these properties would ultimately be determined by a Long Range Property Management Plan. The Successor Agency needs a Finding of Completion from the Department of Finance (DOF) to receive an approval on, and execute a Long Range Property Management Plan (which would include property disposition). A Finding of Completion will not be issued until the lawsuit between the City and the DOF is settled, thus any sales of property through a Long Range Property Management Plan are not expected in the near term.
2. Development Impact Fees - The property is being sold for development, not speculation. Thus, there will be additional one time fees paid to certain affected taxing entities by way of development impact fees, as the DDA requires the properties be sold and developed.
3. On-Going Property Tax Revenues – Development of the properties sold will generate additional property tax revenues into perpetuity for the affected taxing entities. Again,

since the properties are being sold for development, on-going property tax revenues will be realized sooner pursuant to the DDA.

4. Developer Reinvestment Effect – One of the fundamental principles of the DDA requires the developer to reinvest a portion of the profits from the sale of the residential components of the project into the commercial components that are a part of the project, which commercial components might otherwise not be viable for development. This developer reinvestment requirement would result in additional benefits outlined above in points 1 through 3 that might not otherwise be realized.
5. Repayment of \$500k Line of Credit – In 2009, the Agency provided a Line of Credit as an advance of the required reinvestment dollars (mentioned in #4 above) to Main Street West Partners that were to be paid back from the sale of the residential component of the project. The residential developments have been delayed to due to market conditions, thus the line of credit has not yet been paid back. Main Street West Partners intends to proceed with residential development in an expedited manner in order to pay off this line of credit, which will ultimately end up with the taxing entities. If the DDA were terminated, the repayment of the line of credit would be at risk.

As previously mentioned, changes to the business terms are not a component to the proposed 120-day extension to the DDA. This extension is intended to provide a sufficient amount of time to work with Main Street West Partners to resolve the outstanding issues and work through the process in light of the requirements and procedures in place pursuant to the dissolution laws.

Alternatively, by not extending the term of the DDA, staff believes the affected taxing entities would not be in a better position to benefit from the assets associated with the DDA. If the DDA were ultimately terminated, the disposition process for the properties currently associated with the DDA would be subject to a Finding of Completion from the DOF once the aforementioned lawsuit between the City and the DOF is settled. Upon receiving the Finding of Completion, the Successor Agency could have the ability to adopt a Long Range Property Management Plan for Oversight Board consideration within 6 months of the Finding of Completion from the DOF. Thus, staff does not anticipate a benefit to the affected taxing entities if the termination of the DDA occurred on February 19, 2014, or 120 days thereafter as anticipated by the proposed extension.

Staff recommends the Oversight Board adopt the resolution authorizing the Executive Director to extend the term of the Main Street West DDA by 120 days.
