McCoy Creek Trail PHASE 2 PROJECT

The City of Suisun City is planning for the second phase of the McCoy Creek Trail, which will provide a ¾-mile multi-use paved path along McCoy Creek from Pintail Drive to Laurel Creek. The 10-foot wide concrete trail will extend the completed first phase, which is located between the Central County Bikeway and Pintail Drive. It will include a pedestrian / bicycle bridge, shade structures, wayfinding, educational kiosk signs, and lighting.
